CLOSE ENCOUNTERS

Strange thing were happening last night in the public convenience area of the camp. We are calling it a cose encounter of the very physical sense .

At first we thought that the young men were cleaning the windows of the toilet block but then realised they were being treated to a lesson of the international language of love. One onlooker cried "och mein god I've never seen that before" another reported that he now sees another perfectly good use for a toilet other than crapping .

DOUBLE BUBBLE

Paul and Miguel were being treated to the notion of double bubble last night with Svenja and Katja but due to the fact they are both "Gay Cheesey Wotsits" they declined the offer but as luck would have it Pete the Meat LeMarquand and Boris were on hand to do the smoke exchange game which could have possibly led to the exchange of lip sucking.

So if you were in the loo's last night doing the shakey thang please think of the effect you had on our onlookers and the mental scarring.

LUX LUCK

Last night when everyone was enjoying themselves listening to those that were brave enough to sing at Karaoke, it was the turn of the Luxembourg group when everything went wrong. Was it the Luxembourg group or was it just good luck? We may never know!!!

Did you see this and did the lip thing happen , one onlooker Said " I was going to make trebble bubble but I don't Smoke"
