

INTERVIEW

ISSUE 5

MYSTERY KISSER

Everything was perfect, a cool night, a party in progress and a big fire to keep warm by. One of the Turkish girls, NOT Riella, was making her way across the campsite to join the fun at the party. A tall dark shape approached her and she was trying to see who it was when he grabbed her and kissed her full on the lips for about 2 minutes but she said it seemed longer and she had to go!

!It was a great kiss but she does not know who it was and needs some more. Has this happened to you? Is this Turkish girl the only one or has the phantom kisser of Mersea camp struck again! Please tell us!
