

The Junk Girls

The Junk Girls are scouring the campsite for any form of junk that can be made into more junk! They take simple things that you and I would throw away and put them in the microwave and melt them and what it spark.

They then take a simple clothes hook and make it into a useful thing that can be used for something else entirely.

If you see them give them your junk! If you don't see them then leave your junk in their tents.

They are in need of immediate psychiatric treatment and will be seeing Dr Lurve soon.

Conference Day

Well done all those who attended the conference sessions. The topics of Drugs including drink and smoking and Racism were full of interesting facts from the 7 different nationalities. Whilst young people in Germany can drink beer at 16 they can not be out after midnight. In Holland they sell cannabis in cafes but the owners of the cafes can not buy cannabis legally. In Turkey it is difficult for young people to speak out against the government and for young people to have their rights under article 12 of the UN convention on the Rights of the Child.

It is obvious that there is still a long way to go before we see equal rights for young people. I hope the village groups complete their recommendations on how the different countries should handle drugs and racism. The results will be on the web-site as soon as they are finished so you can print them when you get home and perhaps get some changes in your country.

Thank you for your hard work even when you were so tired.
